**AGICO**

Our plant is located in the beautiful and rich seashore which is bathed throughout.

The entire year in the ample sunshine and mild weather of the north China. We are professional and reliable supplier combine with fruit, nut and vegetable planting, collecting, processing, exporting. Our main products are as follows:

Peanut in shell size: 7/9, 8/10, 9/11, 10/12, 11/13, 13/15

3 kernels in one pod or 2-4 kernels in one pod (sili red variety)

Pumpkin Seeds

Three Kernels Peanut Inshell

Peanut Inshell

Sunflower Kernel

Blanched peanut kernels:  
 Long shape size: 25/29,29/33,35/39  
 Round shape size: 36/41,41/51,51/61

Groundnut kernels:

Long Shape size: 24/28,28/32,34/38,38/42,45/55

Round Shape size: 35/40,40/50,50/60,60/70,70/80,80/90,90/100,100/120

Si Li Red peanut kernels: 40/50,50/60,60/70,70/80,80/90,90/100,100/120

Groundnut Kernels  
Round Shape

Groundnut Kernels  
Long Shape

Si Li Red Peanut Kernels

GWS

Sunflower Kernel

Onion Slice

Hibiscus Flower

Gigner Block

Green Chilli

Yunnan Chilli

Chilli Rings

Yidu Chilli

America Red Chilli

Broad Bean

Aniseed

Garlic Flake

Ginger Slice

## Lichee (Longan) Rinding, Pitting and Beating Equipment

Lichee (longan) rinding, pitting and beating equipment

Lichee (longan) rinding, pitting and beating equipment is a good pre-treatment equipment for further processing. It has been applied widely to process lichee (longan) juice and wine. Lichee & longan rinding, pitting, beating technology and equipments was a research project which belongs to China Speak Program and transfer of scientific and technological achievements of The Ministry of Science and Technology of China. During research period, we got two patents about the equipment, in year 2005, the equipment passed appraisal of scientific and technological achievements, in year 2006, the equipment was award of third class award for scientific and technological progress of Guangdong province, third class award for agricultural technology spreading of Guangdong province.

Application scene

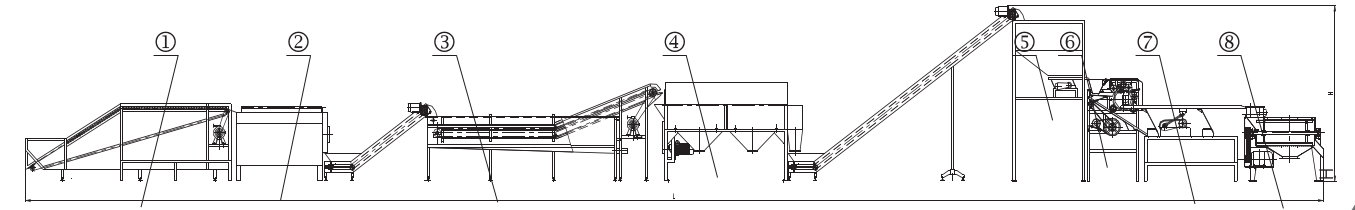

Rinding equipment

Pitting and beating equipment

Drying Equipment Factory

Sketch of whole set equipment

- ① Sort machine (base on quality of lichee or longan)
- ② Brush washer
- ③ Air bath washer
- ④ Classification machine (base on size of lichee or longan)
- ⑤ Buffer of lichee/longan
- ⑥ Rinding machine
- ⑦ Separating machine (rind and pulp)
- ⑧ Pitting and beating machine

Technical performances:

Model	XLL-3000	XLL-6000
Output(base on material)	3000kg/h(Lichee) 2000kg/h(Longan)	6000kg/h(Lichee) 4000kg/h(Longan)
Power capacity	18kW	28kW
Size(L×W×H)	25000×2300×3100mm	30000×5000×3100mm

## Chili Powder Grinding Line

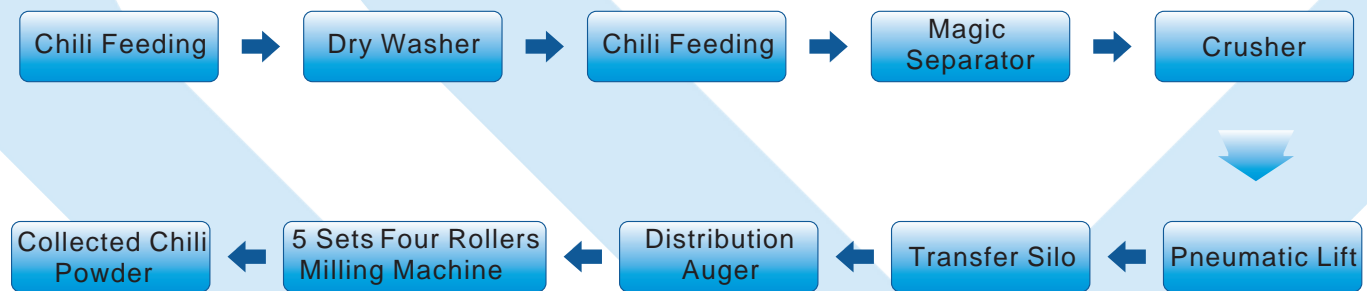

### General description

There're series chili powder grinding line with different capacity.  
The final product can reach to 40-100 mesh.

Model: CH-1000 Chili Mill

### Flowchart

### Major technical specification

1. Output: process 1000kg/hour .
2. The total power: 80 KW, The voltage: 380V,50HZ  
Weight: about 7t Bulk: 30 m3 Loading: one container(20feet)
3. The size of workshop  
It needs a workshop, The length of the workshop is 15m, the span is 6m, the height is 3.5m. Our product line occupies 15×2.5 m.
4. Man power requirement: 2-3 persons.

### 5. Main equipments:

Four Roller Milling Machine  
China patent machine

Two roller milling single machine

Dry washer

Magnetic Selector

### Other lines

15TPD of 4 sets miller

20TPD of 6 sets miller
